

# SETTING NORMS

R - to be Respected

- to Inform others about your own opinions and experiences

- to ask Good natured questions and share Genuine thoughts

H - to Have feelings and express them fully

T - to Try, make mistakes, and be forgiven

THEME #1 QUESTIONS

initiatives coming from the federal level?

S - to Select when and how to challenge yourself and others

How is VCIC navigating new legislation and anti DEI

In our current climate, how are organizations continuing to invest in diversity, equity, inclusion, and belonging efforts?

I'm particularly interested in learning more about what strategies are proving effective in navigating the changing landscape, specifically for nonprofits (both within their organization and how they are supporting their

not to achieve your rights by violating the rights of others

legislation, and funding changes

**Navigating the current anti-DEI** climate in terms of Executive Orders,

## THEME #1 RECOMMENDATIONS

- · Lead with your mission and values
- Focus on communicating what you do more than debating the use of specific words
- Focus on"Leveling DEI," not "Lifting DEI"
  - No explicit preferences based on identity
  - Open to all
  - "Mitigating bias" instead of "only for one group"
  - "We strive to..." instead of "We will ensure..."

(Source: Kenji Yoshino & David Glasgow)

### THEME #1 RECOMMENDATIONS

- "Nothing about us without us"
- Avoid the "3 P's"

communities).

- . Confer Preference of identity (race/ethnicity, sex, gender, age, etc.)...
- 。 to Protected groups...
- so they receive <u>Palpable</u> benefit

# Equity and inclusion considerations related to Al usage

### THEME #2 QUESTIONS

- What are promising or concerning trends you're seeing around Al being used for equity work?
- Are there ways AI can support inclusive community engagement without losing the authenticity of human-to-human dialogue?
- What is VCIC's perspective on preparing the next generation of leaders and practitioners to navigate the intersection of AI, ethics, and equity?

/

9

THEME #2 RECOMMENDATIONS

- Co-create guidelines and have clear expectations around usage related to privacy, work product, editing, etc.
- Consider environmental impact, with disproportionate harm to already marginalized communities
- Be mindful of bias in responses
  - · Related to biases in inputs
  - · Related to when inputs cut off

Be aware of bias in reactions to Al usage
